

ON SITE ASSESSMENTS FOR
EXPERIENCED WORKERS

Level 6 National Vocational Qualifications

for Construction
Managers

Assessed by

Priestman Associates LLP

Why the NVQ?

The NVQ is the UK's national qualification framework for recognising work based competency. In the construction industry it is an attractive addition to PQOs and tenders and is a requirement or recommendation of the following:

- CSCS card scheme
- UKCG
- Projects in the public sector
- Heritage groups
- CDM regulations

What is a level 6 NVQ?

See opposite —
NVQ at level 6 recognises the holder as a:
Construction manager

What disciplines are available at this level?

Construction contracting management
Construction site management (civil engineering)
Construction site management (conservation)

What is involved?

- Induction—usually 2 hours
- Evidence gathering assignments
- Assessed operative observation
- Assessed operative discussion
- Employer endorsement
(most NVQ3s take 9-13 months to complete)

How much will it cost?

For a no obligation quotation please email:
office@priestmanweb.com providing the following
information:

- Your firm and your contact details
- Number of learners requiring assessment and their
years of construction experience

—
© Priestman Associates LLP

We can also assist your experienced workforce to gain the qualifications required to apply for the correct CSCS card for the job they are doing!
