

TRAINING COURSE IN

Principles of Construction Site Health & Safety

Authored & Delivered by

Priestman Associates LLP

Recognised by

The Priestman Associates, Principles of Construction Site Health and Safety is recognised by CSCS as equivalent to the Level One Award *Health and Safety in a Construction Environment*. If you are a construction site labourer and hold a valid certificate for the Principles of Site Health and Safety, you can apply for the CSCS green Labourer card.

You must have passed the CITB Operatives Health, Safety and Environment Test within two years prior to applying for a card. For more information visit www.cscs.uk.com/greencard

Purpose of this programme:

This course is delivered to promote awareness in health & safety for new-starters, apprentices and labourers in the construction industry.

The course is used to form module 1 of the specialist apprentice programmes in façade preservation, stone fixing and modular stone paving.

The course is recognised by CSCS as an equivalent to its new level 1 qualification and therefore helps candidates to meet the requirement for applying for or renewing a green CSCS Labourer Card.

Duration of this programme:

1 - 5 days depending on learner's site experience.

Programme content:

- Construction safety legislation
- Risk assessment
- Safe manual handling
- Safe working at height
- Identifying health risks
- Safety around equipment and machinery

Programme fee:

For a no obligation quotation please email: office@priestmanweb.com providing the following information:

- Your firm and your contact details
- Number of learners requiring training and their years of construction site experience
- Whether you have a training room that can be used for the course and its location
- When the training should ideally take place
